

1940 Census Data for the Hāna District as transcribed by Ward Mardfin

There may be errors, especially in the spelling of names, as the handwritten entries were difficult to read.

If anyone knows of any errors, please contact Ward Mardfin (248-4061)

The dwelling numbers and family numbers have sometimes been altered for consistency as enumerators sometimes lost track of where they were.

All other entries are generally as given with a few changes made when enumerator errors were detected by Ward Mardfin

Below are descriptions of the various columns on the enumeration sheets.

category / comment	Col. #	Description
